Gun laws in Australia are mainly the jurisdiction of Australian states and territories, with the importation of guns regulated by the federal government. In the last two decades of the 20th century, following several high-profile killing sprees, the federal government coordinated more restrictive firearms legislation with all state governments.

Idiot was formerly a legal and psychiatric category of profound intellectual disability, in which a person's mental age is two years or less, and he or she cannot guard against common dangers. Along with terms like moron, imbecile, and cretin, the term is now archaic and offensive, and was replaced by the term "profound mental retardation" (which has itself since been replaced by other terms).

As a follow-up to Tuesday's post about the majority-minority public schools in Oslo, the following brief account reports the latest statistics on the cultural enrichment of schools in Austria. Vienna is the most fully enriched location, and seems to be in roughly the same situation as Oslo. Many thanks to Hermes for the translation from Unzensuriert.at:
