2070. Islam is the world's dominant religion. By 2070, Islam has overtaken Christianity to become the dominant religion.* More than a quarter of the world's population was Muslim by the 2020s* and this growth continued in subsequent decades. Most of the increase has occurred in sub-Saharan Africa with its high fertility rates, although these are beginning to stabilise now.

Currency war, also known as competitive devaluations, is a condition in international affairs where countries seek to gain a trade advantage over other countries by causing the exchange rate of their currency to fall in relation to other currencies. As the exchange rate of a country's currency falls, exports become more competitive in other countries, and imports into the country become more ...

Box and Cox (1964) developed the transformation. Estimation of any Box-Cox parameters is by maximum likelihood. Box and Cox (1964) offered an example in which the data had the form of survival times but the underlying biological structure was of hazard rates, and the transformation identified this.
