

gpsa engineering data book pdf

The GPSA Engineering Data Book was first published in 1935 as a booklet containing much advertising and little technical information. In subsequent editions, technical data expanded and the Data Book gradually became the design and operating "bible" for the gas processing and related industries ...

The heating value (or energy value or calorific value) of a substance, usually a fuel or food (see food energy), is the amount of heat released during the combustion of a specified amount of it.. The calorific value is the total energy released as heat when a substance undergoes complete combustion with oxygen under standard conditions. The chemical reaction is typically a hydrocarbon or other ...

We describe a process for capturing CO₂ from the atmosphere in an industrial plant. The design captures $\hat{V}1$ Mt-CO₂ /year in a continuous process using an aqueous KOH sorbent coupled to a calcium caustic recovery loop. We describe the design rationale, summarize performance of the major unit operations, and provide a capital cost breakdown developed with an independent consulting engineering ...
