An apple is a sweet, edible fruit produced by an apple tree (*Malus pumila*). Apple trees are cultivated worldwide, and are the most widely grown species in the genus *Malus*. The tree originated in Central Asia, where its wild ancestor, *Malus sieversii*, is still found today. Apples have been grown for thousands of years in Asia and Europe, and were brought to North America by European colonists.

When we moved into our new house last spring, one of the most exciting things for us was the apple tree in the backyard. While our yard is much smaller than we would like, this apple tree is the centerpiece that ties it all together and really makes it feel like a mini homestead. Well, that and the chicken coop, of course! Since our house had been unoccupied for several months before we moved ...
