"I Me Mine" is a song by the English rock band the Beatles from their 1970 album Let It Be. Written by George Harrison, it was the last new track recorded by the band before their split in April 1970. The song originated from the Get Back/Let It Be sessions in January 1969, and its lyrics serve as a comment from Harrison on the fractious situation within the group at that time.

Name Background The name "Mine Falls" derives from the 1700s, when low quality lead was supposedly mined from the island below the falls. In the early 1800s the potential of the Nashua River to drive the wheels of industry was recognized. Workers used shovels and mules to dig the three-mile long canal, which provides a vertical drop of 36 feet at the mills.
