A retention period (associated with a retention schedule or retention program) is an aspect of records and information management (RIM) and the records life cycle that identifies the duration of time for which the information should be maintained or "retained," irrespective of format (paper, electronic, or other). Retention periods vary with different types of information, based on content and ...

How to Write Reports for the Board of Trustees & Other

Organizational resilience is defined as "the ability of a system to withstand changes in its environment and still function". It is a capability that involves organizations either being able to endure the environmental changes without having to permanently adapt, or the organization is forced to adapt a new way of working that better suits the new environmental conditions.
