In this file, it is possible to use * for all ejb or to list names of ejb which should be monitored. If you have several ejb-jar.xml files, configure the interceptor in each of them accordingly. Or without modifying the ejb-jar.xml file, it is possible to add the annotation @javax.interceptor.Interceptors in java sources of ejb implementations.

Oracle acquired Sun Microsystems in 2010, and since that time Oracle's hardware and software engineers have worked side-by-side to build fully integrated systems and optimized solutions designed to achieve performance levels that are unmatched in the industry. Early examples include the Oracle Exadata Database Machine X2-8, and the first Oracle Exalogic Elastic Cloud, both introduced in late 2010.

Introduction. In the early days, web servers deliver static contents that are indifferent to users' requests. Java servlets are server-side programs (running inside a web server) that handle clients' requests and return a customized or dynamic response for each request. The dynamic response could be based on user's input (e.g., search, online shopping, online transaction) with data retrieved ...
