The text is for instructors who want to use MATLAB to teachintroductory programming concepts. Since many students strugglewith applying the concepts that underlie good programmingpractice, Learning to Program with MATLAB: Building GUITools was designed upon the observation that studentlearning is enhanced if the students themselves build the GUI(graphical user interface) tool, construct the ...

The principle of power system analysis by V. k. Mehta is best of best book ever written on power system transmission and distribution. In most of the engineering universities the edition the is used for study is 4 th as it included some extra chapter than older ones. The little book contains basic information of power system.
