Most scissors are best-suited for use with the right hand, but left-handed scissors are designed for use with the left hand. Because scissors have overlapping blades, they are not symmetric. This asymmetry is true regardless of the orientation and shape of the handles: the blade that is on top always forms the same diagonal regardless of orientation.

The lungs are located in the chest on either side of the heart in the rib cage. They are conical in shape with a narrow rounded apex at the top, and a broad concave base that rests on the convex surface of the diaphragm. The apex of the lung extends into the root of the neck, reaching shortly above the level of the sternal end of the first rib. The lungs stretch from close to the backbone in the ...

Hi, Thanks so much for this. Itâ€™s great! Just one thing, the print order is not the same as shown in your pictures- instead of the ring on the left and the honeymoon car on the right, the PDF has the pages in order as they would be in the book, so the page with the ring on the left has the cake on the right, which does not work for printing.
